

Mifepristone Ordering Information

Due to the FDA's Risk Evaluation and Management Strategy, mifepristone may only be dispensed by or under the supervision of a certified prescriber or by a certified pharmacy on a prescription issued by a certified prescriber. Any pharmacy, including mail order, independent, and national retailers, may become certified to dispense mifepristone. Detailed information about the mifepristone REMS is available on the [FDA website](#).

This guide provides mifepristone ordering information for **clinicians** and **pharmacies**. There are two manufacturers of mifepristone in the United States:

- GenBioPro is the manufacturer of the generic mifepristone pill. R&S Northeast is the distributor of the generic mifepristone pill.
 - [GenBioPro Prescriber Page](#)
 - [GenBioPro Pharmacy Page](#)
- Danco is the manufacturer of the branded mifepristone pill, called Mifeprex®. AmerisourceBergen is the distributor of Mifeprex®.

Sending a Prescription to a Certified Pharmacy

- As of July 2024, [CVS](#) and [Walgreens](#)’ pharmacies in CA, CO, CT, DC, DE, HI, IL, MA, MD, ME, MI, MN, NH, NJ, NM, NV, NY, OR, PA, RI, VA, VT, and WA are certified to dispense mifepristone. The specific locations have not been made public.
- Mail order pharmacies such as [HoneyBee](#), [American Mail Order Pharmacy](#), and [Manifest](#) are certified to carry mifepristone.
- Some pharmacies have elected to be listed on GenBioPro’s [Pharmacy Directory](#). Certified prescribers may locate additional pharmacies by contacting GenBioPro at info@genbiopro.com or Danco at 1-877-4 Early Option (1-877-432-7596).
- Prescribers must provide the certified pharmacy their Prescriber Agreement Form by email or fax. You can do this prior to sending a prescription or the first time you send a prescription. You only need to do this once per pharmacy location. You can submit a Prescriber Agreement Form from either distributor, regardless of which medication the pharmacy dispenses.
- You must obtain the NDC and lot number of the package of mifepristone received by the patient.
- The patient must pick up the prescription within 4 calendar days of the day the prescription was sent to the pharmacy. If this does not happen, the pharmacy will contact the prescriber.
